ABOUT OUR PUZZLES

Our puzzles are both fun and educational, providing hours of learning and enjoyment for the entire family

Premium Quality

As is our tradition, we are committed to delivering the best quality puzzles.

- All of our puzzles are manufactured, using the **highest quality 0.07 inch (1.75 mm.) blueboard**, offering an exact fit without fraying or chipping over time and use.
- Compliant with CPSC and ASTM/EN71 Standards, all materials are **100% recyclable**, including the **recycled cardboard box** and **biodegradable bag**, and are printed with environmentally friendly and non-toxic vegetable-based inks.
- We offer **piece counts ranging from 24 to 5,000**, something of interest for every age demographic!
- Our puzzle packaging includes **four languages**: English, French, Spanish and German.
- **Enhanced Die Cut** Eurographics has created our own unique die cut that is a nice combination of the traditional Ribbon /grid and Random cuts that are common in the puzzle industry. This die cut has more variety in the individual piece cuts but does not go as far as the multiple shapes that a random cut may have. Here is an example of what types of shapes you may see now.

Save Our Planet Collection

Eurographics' **Save Our Planet Collection** reminds us of the striking beauty of our planet but also its fragility. For its part, **Eurographics** is committed to environmentally-responsible behaviour throughout its entire business operations, including selecting sustainable and recyclable raw materials for its products, optimizing energy use at our plants, and encouraging like-minded behaviour among our staff. IMPORTANT INFO
PLEASE READ CAREFULLY

Note on Automotive Trademarks

Over the past few years, EuroGraphics has signed licensing agreements with most American car manufacturers, including Ford, Lincoln, Mercury, Chrysler, Plymouth, Dodge, RAM, Jeep, Chevrolet, Cadillac, GMC, Buick, Oldsmobile and Pontiac; as well as Volkswagen from Germany, Automobili Lamborghini from Italy and Rover, Austin, MG, Austin-Healey, Wolseley and Morris from the UK.

Regrettably, most of our competitors are publishing puzzles with car trademarks without legal release. Our licensors are moving forward with steps to have these puzzles removed from the market by sending cease and desist letters to manufacturers as well as distributors and retailers carrying products which infringe upon copyright and trademark laws.

In the meantime, at Eurographics, we ask our distributors to pay special attention to this matter and support, in all fairness, the legitimacy of our products.

High-end Art Prints for the Retail Space

What is a Giclée print?

Giclées are **high resolution prints** that are reproduced one at a time on our wide format printers using the latest printing technology. They are images carefully digitalized and curated to match the original art. The same printing process is used to reproduce digital art and photography. We currently have **more than 40,000 images** of all categories and genres to choose from. We can reproduce our images in a variety of sizes, **up to 60 inches** wide.

These prints are offered in 4 types of media:

100% Textile Cotton Canvas
Similar to the actual canvas on which a painter would produce his work

Texturized Premium Watercolor Paper
Similar to the actual paper on which a painter would produce his work

High Quality Photo Paper
